## HP offers printing through Net

KOLKATA, Feb. 24: With increasing use of Internet, Hewlett-Packard India (HP) is aiming to popularise Internet based technology in printing, said director, IWS and Consumer GTMU, HP, Mr Raj Kumar Rishi in Kolkata today.

Mr Rishi said various technologies have been launched throughout the year to popularise Internet printing system. A website, [www.snapfish.in](http://www.snapfish.in) has been launched to help people get HP printed photographs. One needs to send a soft copy through the website. Customers will receive the photograph through courier within a week. ■ SNS
